The California Automated Lobbyist and Campaign Contribution and Expenditure Search System (CAL-ACCESS) was developed to respond to the objectives of the Online Disclosure Act, added to the Political Reform Act by Ch. 866, Stats of 1997.

CAL-ACCESS is the public's window into California's campaign disclosure and lobbying financial activity, providing financial information supplied by state candidates, donors, lobbyists, lobbyist employers, and others. The CAL-ACCESS Replacement System (CARS) Project will implement a new data driven system replacing the existing form driven system.
